Entered the postoffice at Ashdown Arkansas, as second class mail matter

If it is a fact that the army worm starved the weevil by stripping the foliage he feeds upon last year, the remaining members of the tribe should have a hard winter before them again.

There is no more important element in the business world today than legitimate advertising. It serves both the buyer and seller, but the producer as well. True, many business sins are committed in the name of advertising, the fly-by-night, the scheme, the trick advertising that benefits no one but the promoter. It is a subject that deserves the best thought in business and some of the best minds are devoted to legitimate advertising.

Saturday was another big day in Ashdown. We appreciate the fact that the people are in better condition than they were last year, and also the fact that our town can offer unexcelled facilities as a marketing and trading center.

The Idabel Gazette wants to know when the Frisco is going to give them back the two trains a day. That question is of interest to the people all along the line.

No question about that either, education is better than legislation. That the law is no stronger than the sentiment of the public behind the law is a well worn adage. Then, lay the stress on the right kind of education and more of it—the education that educates the heart as well as the mind and teaches the right and the wrong of things. The ineffectiveness of the law can nine times out of ten be laid at the door of the citizenship.

Howard county is surprised and grieved to find that a quarantine has been placed against her cattle for failure to dip. It may not be a comfortable feeling, but Howard county has lots of company.

Henry Ford advises that coal be bought sparingly. At the price the advice is superfluous.

The army worm, having stripped the cotton of foliage, is now feeding upon the foliage of trees, and the chances are that he will leave frost nothing to nip.

The crowds at the courtyard Sunday afternoon to hear the lecture indicate that the ku klux stand as high in this section.

The general election will come next Tuesday. The test of a real Democrat is not your willingness to vote in the primary, but in your willingness to go to the polls and vote in the general election. The man who lays down on his party in a general election may be termed a slacker-Democrat. Let us make the majority so large and overwhelming that all may know that Little River county has a 100 per cent loyal band of Democrats.

The Labor Department reports that almost overnight the industries of the country have developed a great labor shortage and that there are now more jobs than men. This is nothing to worry about. If true, it is a healthful condition. We hope the period has passed when there were more men than jobs.

Local Squad Lost to Idabel. The local football squad lost to the Idabel High team Friday afternoon, the score being 32 to 0. The boys said the game served to show them their own weaknesses and will be of great benefit to them in the coming games. They will play the Horatio High here Friday.

It's toasted. This one extra process gives a delightful quality that can not be duplicated

Washington Representative to Introduce Drahtic Bill in Next Congress.

Washington, Sept. 23.—New legislation restricting immigration almost to the point of exclusion was outlined today by Representative Johnson of Washington, chairman of the House Immigration Committee, in a statement of plans for the next session.

He suggested many changes in the existing law, which he will endeavor to have Congress approve at the next session. He expressed the opinion that the country "seems to want complete suspension of immigration," but contended this was impracticable.

Proposed Changes.

Measures urged by Mr. Johnson for tightening up the present law included the following:

"Reduce the percentage figure to 2 per cent of even to 1 1-2 per cent, thus lowering the total number of admissibles from countries entitled to large quotas.

"Give all countries which have separate governments or parliaments which act independently of the parent government, base quotas of about 600 each annually, cutting down other exemptions as far as possible.

"Treat immediate families as units, admitting the husband, wife or children of citizens of the United States and aliens permanently domiciled here.

"Perfect the illiteracy test by providing authority for the exclusion of the mentally inferior and the emotionally unstable classes.

"Provide for more thorough physical examination of immigrants by authorizing the modern blood test, a simple yet effective step, which will exclude aliens afflicted with diseases otherwise not readily detected.

"Apply the quota law to alien seamen who intend to leave ship and remain in the United States.

"Admit certain exempted classes, such as students, actors and members of certain professions, or temporary stay only.

"Limit all immigration to persons eligible to citizenship, once and for all time disposing of difficulties which have arisen by reason of the heavy colonization of our Pacific slope of unassimilable alien races."

Notice to Tax Payers.

The tax books for the collection of the special assessment upon the real property in Waterworks District No. 1 of Ashdown, Ark., has been placed in my hands. All owners of real property lying in the Dist. are required to pay their assessments to me within 30 days from this date. If such payment is not made, action will be commenced at the end of that time for the collection of said assessment and for legal penalties and costs. Given under my hand this Sept. 1, 1922.—Lon T. Jones, Collector. Sat 2 23

TURKISH FORCES WILL REJECT PEACE TERMS

Rumors Are That Constantinople Is In Flames—Peace in Europe Very Uncertain.

Paris, Sept. 25.—Kemalist leaders regard the allied peace offer as insufficient, according to advices from Constantinople today.

The Turkish nationalists, according to these reports, will demand that their army be permitted to enter Thrace immediately.

They also refuse to accept the allied proposal that the League of Nations be given control of the Dardanelles and the Bosphorus, the advices stated.

There was a distinct feeling that Kemal, the leader of the victorious nationalists, would accept the allied plan which allows the Turks to come back into Europe, giving them their capital, Constantinople, and restoring to them Eastern Thrace as far as the Maritza River.

It was hoped that an answer to the allied proposals, which also invites Kemal to attend a Near East peace conference, presumable to be held in October, would be received by the end of the week. Franklin Bouillon, French Near East expert, has left Paris and is due to confer with Kemal on Friday, it was stated.

It was reported here that Kemal objected to the peace parley invitation because Bulgaria and Russia were not included in the call. It was believed that Bouillon, who is said to have the confidence of the Turkish leader, will be able to persuade Kemal to accept the terms, which it was pointed out, include, almost the entire list of demands made on the allies by Kemal.

Word which seeped through here from the Near East said that Kemal was having a hard time to hold his forces in check. Some credence is placed in this by diplomats here.

"I think the peace conference will be held within a month," said the Serbian minister, "but can the Kemal troops be restrained that long." The minister denied that Jugoslavs were mobilizing. Serbia, he said, is most satisfied with allied terms but wishes some guarantees since "I am officially informed that the Turks are sending arms into Bulgaria."

Constantinople, Sept. 25.—A fire is raging in Upper Pera street, a main thoroughfare of the capital. The population is in a state of panic.

Constantinople, Sept. 25.—The Angora government officially announces that two Kemalist cavalry divisions totaling 3,000 men, have occupied Eren Keui.

Constantinople, Sept. 25.—It is persistently reported that the Sultan's cabinet will resign tomorrow.

The armistice conference will be held at Mudania on or about October 1.

Ashdown School News

Mr. Wilkerson, the coach of the A. H. S., and the boys are working hard on the gridiron. They expect to have a winning team and play a good many games. There are about fifteen candidates for the team and in their bunch there is a lot of good men. We have one of Hope's stars, Eunice Bowden. Others that are showing up well are Cobb, Tiffin, Thill and Hunter. The coach picked his squad Thursday afternoon. The first game was with Idabel last Friday at Idabel. We expect to have at least four games at home and four away. The first game to be played in the home ground will be with DeQueen October 6. The boys and girls can help the boys win by giving nickels and by rooting for the team.

Ashdown High School is steadily growing. The enrollment this year is now four hundred and thirty.

The boys in the manual training department, 16 enrolled, are taking great interest in their work. They are prepared to make flower boxes and stands of various kinds, magazine racks and other useful articles. Orders from the public will be promptly filled.

A splendid addition has been made to the school library in the form of ten volumes of "The World Book," which cost fifty seven dollars and fifty cents.

Two new subjects, Social Science and Biology have been introduced into the school this year.

The senior class has been organized with an enrollment of nineteen. Officers have been elected as follows: Ada Wimberly, president; Effie Marr Westbrook, secretary-treasurer; Mr. Wilkerson, sponsor.

Teacher and pupils of the eighth and ninth grades wish to publicly express appreciation to Mr. Leslie for the use of an electric fan.

Mr. Miller has very generously donated ice for the entire school and a ceiling fan to the high school and Mr. Jim Medley donated his time and labor in installing the fan.

Miss Sallie Mae Pipkin entered the ninth grade Monday.

The tax books for the collection of the special assessment upon the real property in Sewer District No. 1 of Ashdown, Ark., has been placed in my hands. All owners of real property lying in the Dist. are required to pay their assessments to me within 30 days from this date. If such payment is not made, action will be commenced at the end of that time for the collection of said assessment and for legal penalties and costs. Given under my hand this Sept. 1, 1922.—Lon T. Jones, Collector. Sat 9 23

The new Goodyear Cross-Rib Tread Cord

A Real Cord Tire for Small Cars at a Popular Price

The new Goodyear Cross-Rib Tread Cord in the 30 x 3 1/2 inch clincher type is a tire that the small car owner will warmly welcome.

It gives him, at a price lower than the net price he is asked to pay for many "long discount" tires, every advantage of quality cord tire performance, for it is a quality tire through and through.

It is made of high-grade long-staple cotton; it embodies the reliable Goodyear quality of materials; its clean-cut tread engages the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

The tough tread stock in this tire is carried down the side-walls clear to the bead, making it rut-proof to an extraordinary degree.

In every particular it is a representative Goodyear product, built to safeguard the world-wide Goodyear reputation.

Despite its high quality, and the expertness of its construction, it sells at a price as low or lower than that of tires which lack its important features.

The 30 x 3 1/2 inch Cross-Rib Cord clincher..... \$12.50

This price includes manufacturer's excise tax
Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks
